

CAPABILITY STATEMENT

"We Make Our Client's Mission Our Mission"

WHO WE ARE?

Practical Intelligence, LLC (PI) is an Economically Disadvantaged Woman-Owned Small Business founded in 2012. PI has been operating as subject matter experts in the field of Cybersecurity, Information Assurance, Identity Management and Vulnerability Assessments for the Department of Defense (DoD) and Intelligence Community (IC) for 11+ years. As practitioners with deep understanding of the threat environments, our team has delivered proven solutions that mitigate those problems and lead to mission success. Our goal is to provide our customers with data-driven results that inform decisions to guide policy development and governing principles. As honest brokers in a highly dynamic information environment, PI's vision is to deliver indispensable expertise and provide innovative solutions to unique problems.
